

# Contents

<b>1</b>	<b>Introduction</b>	<b>4</b>
<b>2</b>	<b>Image Retrieval</b>	<b>5</b>
2.1	Image Description . . . . .	5
2.1.1	Aggregation of Local Descriptors . . . . .	5
2.1.2	Global Descriptors . . . . .	10
2.2	Descriptor Compression, Indexing and Nearest Neighbor Search . . . . .	10
2.3	Query Expansion . . . . .	12
<b>3</b>	<b>Convolutional Neural Networks</b>	<b>13</b>
3.1	Neural Networks . . . . .	13
3.2	Layer Types . . . . .	13
3.2.1	Convolutional Layer . . . . .	13
3.2.2	Non-Linearity and Rectification Layer . . . . .	14
3.2.3	Local Contrast Normalization Layer . . . . .	14
3.2.4	Pooling Layer . . . . .	14
3.2.5	Fully-Connected Layer . . . . .	15
3.3	Architectures . . . . .	15
3.4	Available Implementations . . . . .	15
3.5	Training . . . . .	16
3.5.1	Regularization . . . . .	16
<b>4</b>	<b>Neural Codes for Image Retrieval</b>	<b>17</b>
4.1	Architecture, Training and Implementation . . . . .	17
4.2	Compression . . . . .	17
<b>5</b>	<b>Experiments</b>	<b>18</b>
5.1	Datasets . . . . .	18
5.2	Mean Average Precision . . . . .	18
5.3	Results . . . . .	19
5.4	Discussion . . . . .	19
<b>6</b>	<b>Conclusion</b>	<b>20</b>
6.1	Research Questions . . . . .	20
